Hi! For full access to courses you'll need to take a minute to create a new account for yourself on this web site. Each of the individual courses may also have a one-time "enrolment key", which you won't need until later. Here are the steps:

1. Fill out the [New Account](#) form with your details.
2. An email will be immediately sent to your email address.
3. Read your email, and click on the web link it contains.
4. Your account will be confirmed and you will be logged in.
5. Now, select the course you want to participate in.
6. If you are prompted for an "enrolment key" - use the one that your teacher has given you. This will "enrol" you in the course.
7. You can now access the full course. From now on you will only need to enter your personal username and password (in the form on this page) to log in and access any course you have enrolled in.

2nd LOGOS OPEN WORKSHOP

2008. szeptember - Várna

The screenshot shows the LOGOS project website. At the top, there is a banner with the text "open workshops" and the LOGOS logo. Below the banner, there is a navigation bar with links: "project summary", "news", "partners", and "links". The main content area is titled "2nd Open Workshop - CALL FOR PAPERS". It includes a sub-header "CALL FOR PAPERS" and a paragraph about the "2nd LOGOS Open Workshop on 'Cross-Media and Personalized Learning Applications with Intelligent Content'". The text specifies the dates (03 September 2008) and location (Varna, Bulgaria), and mentions its conjunction with the 13th International Conference on Artificial Intelligence: Methodology, Systems, Applications - AI@Work (AIMSA 2008) from 04-06 September. A "SCOPE:" section follows, describing the project's focus on knowledge-on-demand for ubiquitous learning and its contribution to the development of learning processes components.

CALL FOR PAPERS

2nd LOGOS Open Workshop on "Cross-Media and Personalized Learning Applications with Intelligent Content"

(LAIC 2008)
03 September 2008, Varna, Bulgaria

in conjunction with the 13th International Conference on Artificial Intelligence: Methodology, Systems, Applications - AI@Work (AIMSA 2008)
04-06 September, Varna, Bulgaria

SCOPE:

The 6FP project LOGOS "Knowledge-on-demand for Ubiquitous Learning" (<http://www.logosproject.com/>) addresses innovative development of the learning processes components – resources, services, communication spaces. It contributes to the openness for ubiquitous learning of the existing large-scale repositories of digitised information and to the process of its transformation into intelligently organized learning content. The project focuses also on the learning communication spaces by integrating web-, digital television and mobile technologies to support cross-media learning content.
